Education

University of Illinois Urbana-Champaign, Master of Computer Science (Expected)	Sept 2025 – Dec 2026
Tongji University, B.Eng in Computer Science and Technology	Sept 2021 – July 2025
National University of Singapore, Exchange Student	Jan 2024 – May 2024

Research Interest

My primary research interest generally lies in learning for **Natural Language Processing (NLP)**, encompassing both applied and fundamental research. Recently, I have been focusing on model interpretability through inference-time algorithms for Large Language Models (LLMs) and the design of self-evolving agent frameworks. I aim to contribute to the development of **safer** and **more transparent** AI systems.

Experience

Research Assistant, UC Santa Cruz – Santa Cruz, CA (*Remote*) Sept 2024 – Feb 2025

Advisor: Prof. Yuyin Zhou, Computer Science and Engineering, UC Santa Cruz

- Conducted research on medical visual question answering (VQA) benchmarks and the design of agent systems.
- Co-led the development of MedFrameQA as a co-first author. Currently leading the development of an agent system with self-evolving capabilities.

Research Assistant, University of Waterloo – Waterloo, ON (*Onsite*) Sept 2024 – Feb 2025

Advisor: Prof. Freda Shi, David R. Cheriton School of Computer Science, University of Waterloo

Prof. Zining Zhu, Stevens Institute of Technology

- Conducted research on next token distribution, prefix tuning and gradient-based adversarial attacks in NLP
- First Author in the project of Distribution Prompting, which provides insights into the expressiveness of Language Models and the challenges in using them as probability distribution proposers
